Team "I'm part of too many teams" Proposal

Raegan Lucero   Caleb McWilliams   Daniel Bartel

Motivation

What is the vision for your project? Why should we care?

Goal

What do you expect to build?

Design Rationale

Based on our class discussion, what is the rationale for your system and the APIs you are bringing together?

Technical Details

Implementation

The application will be a single-page **AngularJS** application served running on a server using the **Flask** microframework The GitHub repository is located here: https://github.com/dbartel/csce438.

Workflow

- **User Input:**

- **Output:**
